CLIMATE CHANGE IN MY BACKYARD

FREE EDUCATOR WORKSHOP

Join us for a day of exploration as we dive into environmental concepts and issues relevant to our wild and wonderful ecosystems. We will share hands-on activities and other teaching resources that educators can use to connect their students to West Virginia ecology.

Saturday, April 30, 2022
9:00 am - 5:00 pm

CAMP WALDO, Summer Co.
**206 Ferrells Eddy Fort,
Hinton, WV, 25951**

FREE workshop opportunity!
Choose ONE date to attend.

Saturday, May 14, 2022
9:00 am - 5:00 pm

Material is focused on 6th to 12th grade

Benefits

- ✓ Lunch provided
- ✓ Free educational material
- ✓ CEU approval support
- ✓ Lesson planning support
- ✓ Raffle entry for an educator swag bag

What is Appalachian Headwaters?

Appalachian Headwaters is a nonprofit organization based in Lewisburg, West Virginia. We are focused on community development, environmental education, and ecological restoration in central Appalachia. We operate several educational programs in the region, including Camp Waldo (a summer camp for 4th-8th graders), a high school and college internship program, the Appalachian Beekeeping Collective (a beekeeping co-op for all ages), and the Appalachian Pollinator Center (an education and research program focused on native pollinators and their habitat).
